Our small part in making India – Maharashtra “POLIO FREE”

Inner Wheel Club of Chembur has been taking active part in the Polio eradication drive. From last year our club has started an innovative project.

We visit the nursery school & pre-primary schools in our locality (Chembur) on the post NID day and give oral polio vaccine to all those children who have missed on the previous day i.e. NID day.

This is being carried out with the permission of the school authorities and also the parents (of the children) who are made aware of the importance of the NID days.

Last year we were successful in covering 6 schools and on each occasion nearly 350 children got covered. This year the principal of Mahatma Education Society Night Degree College of Arts and Commerce – Mrs. Padma Rangan has agreed to help us by sending 15 students to come with us on post NID day to assist us with our project. This has enabled us to increase the number of schools we cover.

HOW WE WORK

1. Two members of our Club along with 2 students visit a school.
2. One student checks the children for the mark on the little left hand finger.
3. Our member gives oral vaccine to those children who have not taken the dose.
4. The other student immediately marks on the little finger of the child who has been administered the dose.
5. The other member marks on the B. M. C. sheet given to us for their records.

This is done very carefully and systematically. Proper care is taken regarding the maintenance of cold chain for vaccine.

We meet on the 3rd Wednesday of every month.
