About 119 students (boys and girls) from first year, second year and third year participated in the both days sessions. On the first day, the 25th February, 2023 the session was inaugurated by the I/C Principal Dr. Eknath Zhrekar and Resource person Ms. Sangeeta Saraf. Dr. Tushar A. Pawar introduced the guest of honor and the resource person Ms. Sangeeta Saraf. The opening session was delivered by Ms. Sangeeta Saraf on the topic Gender equality. The speaker highlighted need of considering equal physical and mental power in both genders. She underlined that the time had come to respect mutually and appreciate the strength in each other. It is also pointed out that unlike previous generation, females cannot be side line in any area. The session was a strong attempt to erase the mind-set existing even in the young generation with a reserved discriminative mentality. However, the entire session was thought provoking and very much Live. The students came forward with a few queries and the speaker clarified them very well. The second session of the day was on selection of life partner. This was also very interesting and very much interactive. The speaker then motivated the students to imagine the scene of their proposing to their life partner. After some time, the speaker collected their demands made to their partner at the time of proposal. Each demand was jotted down on the board and analyzed them. Letter she sang songs related to each of the points written on the board. Toward the end of the session the students were found very positive in selecting the partner to lead a happy married life. 	speaker, first of all, laid down a few case studies regarding the tendencies to get divorced after a short-married life. The speaker opened out the possible reasons and the strong one of them is weakness in mutual understanding. He advocated the need of open talks about the thought about the partner and feelings to be respected. The other reason for separation being not recognizing or supporting the decisions taken by either-or. In-fact the partners can counsel each other whenever a stress or strain disturbed the relation. Giving mutual respect is only solution for a prospective married life. After formally winding up the session the house was open for question answer time. The students well utilized this period to get clear many of them confusing thoughts they observed in other family relations which should not take place in their future life. Mr. Chandrakant Sarvogod started new session on the same day after five minutes break on Sexuality education and legal aspects. This was more or less on anatomic knowledge imparting about the mis-concepts in about reproductive system. The speaker detailed each segment of getting fertility and pregnancy. He also gave an idea about X and Y chromosomes and classification in the birth of boy and or girl child. The tour guide Mr. Shashikant Dande, deputed by MBT, arrived. All the students partook of breakfast and then proceeded to the tour. Tour Guide Mr. Shahikant Dande gave a brief description and history of Mumbai Port Trust. He described it as the oldest natural port. He explained that, after the transfer of the Port and Island to the East India Company by Royal Charter in 1668, development of the Port started taking shape. Various measures such as construction of a Custom house, a warehouse, dry docks etc. were taken up by the Company to encourage trade. In 1813, an act of the British Parliament ended the Company's commercial monopoly. This resulted in a great spurt in the trade of the Port. The year 1858 witnessed the exit of East India Company, and passing of Mumbai under the direct rule of the British Crown. In 1873, the present statutory autonomous Port Trust was set up for administering the affairs of the Mumbai Port. The opening of the Suez Canal in 1869 revolutionized the maritime trade of Mumbai. It shifted the whole scenario of import and export trade from the East coast to the West and Mumbai port became the

principal Gateway of India. The first wet dock constructed in India was the Sassoon Dock at Mumbai in 1875 followed by the Prince's and Victoria Docks in 1880 and 1888 respectively. However, Princess and Victoria Dock are being filled up to convert the consultant area to make temporary stacking yard for containers in connection with "Offshore Container Terminal" in Indira Dock. The Alexandra Dock renamed Indira Dock in January 1972, the most modern of Mumbai's docks, was constructed in 1904-1914. To handle petroleum products and liquid chemicals, a jetty was constructed at Pir Pau in 1923 and a new modern jetty capable of handling tankers of 47,000 Displacement tons was commissioned in December 1996. A modern oil terminal at Jawahar Dweep with three berths was constructed between 1952-1956, and the fourth oil berth capable of receiving tankers upto 1,25,000 Displacement tons was constructed between 1980-1984.

The students walked through the port and witnessed the cars, busses and other automobiles lined up for export to Srilanka. Automobiles that had been imported were also lined up in the yards. It was an impressive sight. The students walked on to see the tall cranes that had grabs to lift loose cargo like grains and pulses. These were remote control operated and the students were keen to understand how they worked. A cargo ship was on the banks and the students were awe-struck by the sheer magnitude of the vessel. Further in the port they saw a commercial vessel, a cruise liner, that looked grand and impressive. The tour guide explained that it had a swimming pool and even hotels on different floors and that curse liners took passengers to Singapore, Goa and Vishakhapatnam. Mr. Dande took small groups of students to the Dry Dock, a special area off the port where ships were repaired and maintained. We could witness the huge ship on blocks below which repair work on the bottom of the ship was being conducted. This was an interesting sight to see. While walking from the Yellow Gate, we crossed the Blue Gate and Grey Gate and saw the Babasaheb Ambedkar administrative building.

The tour of the facility under construction, a five star hotel in the making by the Mumbai Port Trust, the Government of India and Travel and Tourism Department of India was an impressive sight. The students relaxed for a bit in this facility and moved to see submarines in action. We could see 3 submarines

Day One

Name of the Event -:	National Webinar on World Economy on Tenterhooks
Resource Person	Dr. Aditya Srinivas, Chief Economist BSE Brokers' Forum
Date & Time of the Program-:	11.00 am to 12.30 am on 28th May 2020
Venue -:	Online at Zoom Application and Facebook Live
No of Participants-:	930
Objective-:	Brief about problems faced by the world economy due to the COVID -19 pandemic and comment on the future of the Indian Economy.
Brief Report of the Program-:	The program started at 11.15 with the welcome address given by principal Dr. Padma Rangan. Dr. Ekanth zhrekar introduced the resource person and opening remarks were given by Assistant Professor Harsh Shukla. Dr. Aditya Srinivas expressed a very optimistic view of the Indian economy. He explained that we are not an export-driven economy and rely upon domestic consumption. Sir opined that lockdown was not a solution but it allowed countries to buy time to prepare for Covid-19. Dr Adiya Srinivas quoted an example of a past crisis and explained how Indians faced all those crises with flying colour. The USA, Europe, China and Japan controls 61 per cent of the world economy and anything goes wrong in these countries, the world economy face problem. Indian stock market will benefit from capital inflows as the world economy revives. Migrant labor was the main issue faced by the Indian Economy during the lockdown. The Indian government failed to provide any benefit to salaried class people in its 20 lakh crore package and it's a big disappointment. Further distribution of this 20 lakh crore was not justifiable for a different sector. Sir gave the opening of the defence sector for FDI and problems associated with it. During this difficult time, the Indian Government must go for a direct cash transfer scheme to revive the aggregate demand in the economy. Further, sir emphasized that granting loans will not work during this time as people are worried about their future. Dr. Aditya Srinivas very rightly pointed out that India needs well educated and well-trained people to optimally use demographic dividend. In a nutshell, Dr Aditya Srinivas said that a relatively young population, domestic consumption and higher saving rate is a key for the optimistic future of Indian Economy. Summary and Vote of thanks for the session was given by Dr. Lata Krishnan.

Day Two

Name of the Event -:	National Webinar on Indian Economy Road Ahead
Resource Person	Dr. Aditya Srinivas, Chief Economist BSE Brokers' Forum
Date & Time of the Program-:	11.00 am to 12.30 am on 29th May 2020
Venue -:	Online at Zoom Application and Facebook Live
No of Participants-:	930
Objective-:	To discuss the future of the Indian economy and management of various asset class by an Indian Investors
Brief Report of the Program-:	Principal Dr. Padma Rangan gave the welcome address for day two sessions. The session was live-streamed on Facebook. Dr. Aditya Srinivas talked about various asset classes available to individuals for investment purposes. Quoting the example of the current COVID - 19 crisis sir said that every individual needs to keep 6 months' cash in their bank account for safety. This can save from future uncertainty as cash is the most liquid asset it always helps you at the time of emergency. The second asset class discussed by sir was equity investment. Indian equity has given a very good return in the past. Global investors have confidence in Indian equity. This is a time when blue-chip shares like HDFC, Reliance, etc are available at a discounted rate. Therefore this is the right time to invest in the equity market. Sir said that Indian has the highest recovery rate in the world and we need to believe in the concept of herd immunity. Gradually come to normal life. The third asset class discussed by Dr. Aditya Srinivas is the Systematic Investment Plan (SIP). Normal people can go for SIP if they don't have time and knowledge about the equity market. This is the safest option available for the middle class. The fourth asset class is gold. Sir discussed the gold rate of the past and said that one must spend 15-20 percent of their wealth in gold. The fifth asset class is property. Sir, said that it is better to invest in property for living purposes and not for investment purposes. This is because the past inventory of the real estate is not sold yet and it is difficult to make a profit in this market for the next 5-6 years. The sixth asset class is the insurance market. One must have a term plan and health insurance to save one's health and family. PPF and FD are a haven for the middle class. Speaking on social welfare, Indian needs more entrepreneurs so create jobs in India. The Indian stock market has immense opportunities. The question-answer session was followed by a talk. Concluding remark was given by Asst, Prof. Harsh Shukla. Librarian Parveen Arif proposed a formal vote.

PROJECT DISHA – A Report

As a prelude to the MNDC Placement Mela 2018 the Placement Cell and the WDC Women Development Cell of Mahatma Night Degree College of Arts and Commerce collaborated with MCC Model Career Centre, CII Confederation of Indian Industries and MoLE Ministry of Labour and Employment to organize the Wheebox Aptitude test for girls followed by group and one-on-one counselling for girls. This is under the ages of the United Nations Development Program Project Disha, a partnership between the India Development Foundation, UNDP and supported by IKEA Foundation

The Disha Project aims at nurturing and enlightening women about the world of possibilities that lies outside in the real world. They implement their project by Education, Empowering and Enabling women and girls through training, bringing about entrepreneurial skill development and providing employment opportunities for women and girls.

Two representatives, Mr. Sunil Yadava and Mr. Dotare from MCC's CII visited the college on 20th December, 2018. The online Wheebox Aptitude test was taken by 66 girls of the MNDC. A briefing was given to them in room number 404. While many students opted to take the test on their mobiles, others moved to the computer centre on the first floor of the college building to take the test. The test lasted for 30 minutes. Results were posted to the email ids of the students. On the next day 21st. December, 2018 four professional psychological counsellors from MCC's CII visited the campus along with Mr. Dayal and Ms. Kavita. Group counselling for all the 66 girls who took the Wheebox aptitude test was organised in room number 404. A PowerPoint presentation was made by the counsellor Ms. Disha who explained vividly how the students had to prepare physically, mentally and psychologically for the interviews. All the do's and don'ts were explained clearly. One-on-one counselling was given to every student and their individual doubts, fears, apprehensions and mental block all cleared. The young girls were geared up to give off their best for the interviews scheduled during the MNDC Placement Mela 2018. They were energised and ready to go!

We thank Ms. Kavita for the personal attention and care to ensure that every student was individually counselled. We thank Mr. Dayal, zonal head of the MCC's CII programme for hand holding the boys of MNDC who didn't stay behind. They requested for counselling and were fortunate to have had the expertise of Mr. Dayal.

Project Disha is an excellent initiative to groom girls to go ahead and clinch careers of their choice and succeed in their lives. We were happy to be part of the Project Disha programme and glad that our students benefited from it! Principal Dr. Padma Rangan and Placement Cell incharge of MNDC thanked the efforts taken by Mr. Saurabh and team to help groom the girls and boys of the college before the MNDC Placement Mela 2018.

Vaishnavi Patil

It was a great experience. Thank you, Swadisha! I was initially sceptical as I have been looking for a back office work . I have been on Swadisha for three months and found a great job with competitive pay and benefits at Wellconnect! I will no longer have to search, and give interviews at various other locations.

Swadisha has a set process includes employability skill test and counselling, which helped me a lot to get the right job at a right time.

I will definitely recommend Swadisha to my friends that are looking for a more flexible work environment.
