ABOUT DBM INDIA:

DBM INDIA (DBM) is a humanitarian organization working to create lasting change in the lives of children, families and communities living in poverty & injustice.

DBM INDIA serves all people regardless of religion, caste, race, ethnicity or gender. It is under the legal umbrella of Navasrushti International Trust and has set its objective as creating Hunger-Free-Communities. With a modest beginning of providing Mid Day meals in one school to 50 children, the organization has grown to a commendable force having its own infrastructure facilities providing education, health care, livelihood skills, empowerment and placements. Although initially the focus of the organization was on dealing with the issue of hunger, experiences at ground level drew to light that along with providing meals to arrest malnutrition and child mortality we also need to address issues that are the background reasons which are actually preventing our progress and development.

The Sustainable Development Goals (SDGs) are designed to end poverty, hunger, AIDS, and discrimination against women and girls, adopted by United Nations in 2015 as a universal call to action to end poverty, protect the planet, and ensure that by 2030 all people enjoy peace and prosperity. 1. STATEMENT OF PURPOSE

The employability of India's university graduates continues to remain weak even while there is an acute shortage of skilled manpower in an increasing number of high demand sectors. The youth are thus disillusioned about job opportunities post their studies. Though they have educational degrees, they lack the skills and the experience to get employed.

Skilling the youth to enhance their employability and enabling them to be effective contributors to the nation's growth and development assumes paramount importance in the current context.

The Tata Institute of Social Sciences has been working to reach the youth through an innovative programme called 'National University Students' Skill Development (NUSSD)' for the same purpose. The aim is to enable the youth enrolled in the various degree programs in Colleges and Universities in India to acquire skills that would give them a Certificate/Diploma in a specific high demand domain area in addition to their
