A young population that has the potential to fight the pandemic. ➤ A study of the Government interventions / relief packages offered. – All segments were given relief, farmers, MSMEs but nothing for salaried class, ➤ Should have credited cash to the accounts (Jana Dhana Yojana) of people directly. This would help them spend and kick-start the economy. ➤ Decrease in interest rate will not help. People will not take loans due to unstable salary and job scenario caused by the Covid-19 pandemic. Hence lowering interest rates has not helped. ➤ Companies should support the employees and not cut salaries or lay off staff. They should be able to support their employees for atleast 3-6 months. ➤ Challenges we (India) face are our <u>63 crores migrant labour</u>. We are a 1.37 crore population, majority of whom are not educated. How are we going to solve this problem? ➤ The employment problem as a result of the Covid-19 crisis. <p>The session ended with a question and answer session where several interesting questions were answered that set the tone for day 2 of the webinar.</p>

Brief Report of the Program-:	<p>The program started at 11.15 with the welcome address given by principal Dr. Padma Rangan. Dr. Ekanth zhrekar introduced the resource person and opening remarks were given by Assistant Professor Harsh Shukla. Dr. Aditya Srinivas expressed a very optimistic view of the Indian economy. He explained that we are not an export-driven economy and rely upon domestic consumption. Sir opined that lockdown was not a solution but it allowed countries to buy time to prepare for Covid-19. Dr Adiya Srinivas quoted an example of a past crisis and explained how Indians faced all those crises with flying colour. The USA, Europe, China and Japan controls 61 per cent of the world economy and anything goes wrong in these countries, the world economy face problem. Indian stock market will benefit from capital inflows as the world economy revives. Migrant labor was the main issue faced by the Indian Economy during the lockdown. The Indian government failed to provide any benefit to salaried class people in its 20 lakh crore package and it's a big disappointment. Further distribution of this 20 lakh crore was not justifiable for a different sector. Sir gave the opening of the defence sector for FDI and problems associated with it. During this difficult time, the Indian Government must go for a direct cash transfer scheme to revive the aggregate demand in the economy. Further, sir emphasized that granting loans will not work during this time as people are worried about their future. Dr. Aditya Srinivas very rightly pointed out that India needs well educated and well-trained people to optimally use demographic dividend. In a nutshell, Dr Aditya Srinivas said that a relatively young population, domestic consumption and higher saving rate is a key for the optimistic future of Indian Economy. Summary and Vote of thanks for the session was given by Dr. Lata Krishnan.</p>

Objective-:	To discuss the future of the Indian economy and management of various asset class by an Indian Investors
Brief Report of the Program-:	<p>Principal Dr. Padma Rangan gave the welcome address for day two sessions. The session was live-streamed on Facebook. Dr. Aditya Srinivas talked about various asset classes available to individuals for investment purposes. Quoting the example of the current COVID - 19 crisis sir said that every individual needs to keep 6 months' cash in their bank account for safety. This can save from future uncertainty as cash is the most liquid asset it always helps you at the time of emergency. The second asset class discussed by sir was equity investment. Indian equity has given a very good return in the past. Global investors have confidence in Indian equity. This is a time when blue-chip shares like HDFC, Reliance, etc are available at a discounted rate. Therefore this is the right time to invest in the equity market. Sir said that Indian has the highest recovery rate in the world and we need to believe in the concept of herd immunity. Gradually come to normal life. The third asset class discussed by Dr. Aditya Srinivas is the Systematic Investment Plan (SIP). Normal people can go for SIP if they don't have time and knowledge about the equity market. This is the safest option available for the middle class. The fourth asset class is gold. Sir discussed the gold rate of the past and said that one must spend 15-20 percent of their wealth in gold. The fifth asset class is property. Sir, said that it is better to invest in property for living purposes and not for investment purposes. This is because the past inventory of the real estate is not sold yet and it is difficult to make a profit in this market for the next 5-6 years. The sixth asset class is the insurance market. One must have a term plan and health insurance to save one's health and family. PPF and FD are a haven for the middle class. Speaking on social welfare, Indian needs more entrepreneurs so create jobs in India. The Indian stock market has immense opportunities. The question answer session was followed by a talk. Concluding remark was given by Asst, Prof. Harsita Shukla. Librarian Parveen Arif proposed a formal vote of</p>

Dr. Anaya Markandeya introduced the resource person Dr. Vilas Gaikar.</p> <p>The budget has its impact on every section of society either directly or indirectly. We need to understand the positives and negatives impacts of a budget on an individual's life. Covid -19 pandemic destroyed the world economy except for china and caused the loss of life all over the world. Dr. Vilas Gaikar stressed that this year we might face a negative growth rate. This situation comes once in a century. However, It is expected that the Indian economy will achieve 11 percent growth rate in 2021-22. During the time of the Covid-19 pandemic, we should not think about the fiscal deficit.</p> <p>Dr. Gaikar emphasized that there should be appropriate employment opportunities available in the unorganized sector. Industrial Growth should be given priority as it can provide more employment in the economy. Agricultural reforms have become a controversial issue in the current circumstances. It should be noted that only the agriculture sector showed positive growth even when industry and services failed to show any positivity. Sir said that this year we need to focus on how to survive and next year we should focus on how to revive the economy.</p> <p>The government and revenue collection was debated as the middle class was expecting tax relief from this budget. administrative issues should not be the strategy. Atma Nirbhar Bharat Abhiyan was introduced in the budget but it's a long road ahead. The migrant workers faced the brunt of the covid -19 pandemic and therefore one nation one card scheme is initiated by the government. It is not good to tax solar products to tap solar energy. Sir raised his concern as the union budget has not given priority on human capital formation as it was expected from the budget. Sir said that we need to put in effort to strengthen Indian higher education system as Indian higher education sector is not on par with the international level.
