Dr. Ekanth zhrekar introduced the resource person and opening remarks were given by Assistant Professor Harsh Shukla. Dr. Aditya Srinivas expressed a very optimistic view of the Indian economy. He explained that we are not an export-driven economy and rely upon domestic consumption. Sir opined that lockdown was not a solution but it allowed countries to buy time to prepare for Covid-19. Dr Aditya Srinivas quoted an example of a past crisis and explained how Indians faced all those crises with flying colour. The USA, Europe, China and Japan controls 61 per cent of the world economy and anything goes wrong in these countries, the world economy face problem. Indian stock market will benefit from capital inflows as the world economy revives. Migrant labor was the main issue faced by the Indian Economy during the lockdown. The Indian government failed to provide any benefit to salaried class people in its 20 lakh crore package and it's a big disappointment. Further distribution of this 20 lakh crore was not justifiable for a different sector. Sir gave the opening of the defence sector for FDI and problems associated with it. During this difficult time, the Indian Government must go for a direct cash transfer scheme to revive the aggregate demand in the economy. Further, sir emphasized that granting loans will not work during this time as people are worried about their future. Dr. Aditya Srinivas very rightly pointed out that India needs well educated and well-trained people to optimally use demographic dividend. In a nutshell, Dr Aditya Srinivas said that a relatively young population, domestic consumption and higher saving rate is a key for the optimistic future of Indian Economy. Summary and Vote of thanks for the session was given by Dr. Lata Krishnan.</p>

<b>Name of the Event -:</b>	National Webinar on Indian Economy Road Ahead
<b>Resource Person</b>	Dr. Aditya Srinivas, Chief Economist BSE Brokers' Forum
<b>Date &amp; Time of the Program-:</b>	11.00 am to 12.30 am on 29 <sup>th</sup> May 2020
<b>Venue -:</b>	Online at Zoom Application and Facebook Live
<b>No of Participants-:</b>	930
<b>Objective-:</b>	To discuss the future of the Indian economy and management of various asset class by an Indian Investors
<b>Brief Report of the Program-:</b>	Principal Dr. Padma Rangan gave the welcome address for day two sessions. The session was live-streamed on Facebook. Dr. Aditya Srinivas talked about various asset classes available to individuals for investment purposes. Quoting the example of the current COVID -19 crisis sir said that every individual needs to keep 6 months' cash in their bank account for safety. This can save from future uncertainty as cash is the most liquid asset it always helps you at the time of emergency. The second asset class discussed by sir was equity investment. Indian equity has given a very good return in the past. Global investors have confidence in Indian equity. This is a time when blue-chip shares like HDFC, Reliance, etc are available at a discounted rate. Therefore this is the right time to invest in the equity market. Sir said that Indian has the highest recovery rate in the world and we need to believe in the concept of herd immunity. Gradually come to normal life. The third asset class discussed by Dr. Aditya Srinivas is the Systematic Investment Plan (SIP). Normal people can go for SIP if they don't have time and knowledge about the equity market. This is the safest option available for the middle class. The fourth asset class is gold. Sir discussed the gold rate of the past and said that one must spend 15-20 percent of their wealth in gold. The fifth asset class is property. Sir, said that it is better to invest in property for living purposes and not for investment purposes. This is because the past inventory of the real estate is not sold yet and it is difficult to make a profit in this market for the next 5-6 years. The sixth asset class is the insurance market. One must have a term plan and health insurance to save one's health and family. PPF and FD are a haven for the middle class. Speaking on social welfare, Indian needs more entrepreneurs so create jobs in India. The Indian stock market has immense opportunities. The question-answer session was followed by a talk. Concluding remark was given by Asst, Prof. Harsh Shukla. Librarian Parveen Arif proposed a formal vote of thanks.

<b>Brief Report of the Program:-</b>	<p>This special workshop was organized by the NSS unit of our college in association with Stree Mukti Sanghatana on the 24<sup>th</sup> and 25<sup>th</sup> November 2021 in our college. About 105 students (boys and girls) from first year, second year and third year participated in the both days sessions.</p> <p>On the first day, the 24<sup>th</sup> November 2021 the session was inaugurated by the I/C Principal Dr. Eknath Zhrekar and Resource person Ms. Sangeeta Saraf. Assoc. Prof. Tushar A. Pawar introduced the guest of honor and the resource person Ms. Sangeeta Saraf.</p> <p>The opening session was delivered by Ms. Sangeeta Saraf on the topic Gender equality. The speaker highlighted need of considering equal physical and mental power in both genders. She underlined that the time had come to respect mutually and appreciate the strength in each other. It is also pointed out that unlike previous generation, females cannot be side line in any area. The session was a strong attempt to erase the mind-set existing even in the young generation with a reserved discriminative mentality. However, the entire session was thought provoking and very much Live. The students came forward with a few queries and the speaker clarified them very well.</p> <p>The second session of the day was on selection of life partner. This was also very interesting and very much interactive. The speaker then motivated the students to imagine the scene of their proposing to their life partner. After some time, the speaker collected their demands made to their partner at the time of proposal. Each demand was jotted down on the board and analysed them. Letter she sang songs related to each of the points written on the board. Toward the end of the session the students</p>

were found very positive in selecting the partner to lead a happy married life.

The programme was concluded after the vote of thanks proposed by the Assoc. Prof. Dr. Lata Krishnan

The second day's session was on marital adjustment by Mr. Chandrakant Sarvogod. The speaker, first of all, laid down a few case studies regarding the tendencies to get divorced after a short-married life. The speaker opened out the possible reasons and the strong one of them is weakness in mutual understanding. He advocated the need of open talks about the thought about the partner and feelings to be respected. The other reason for separation being not recognizing or supporting the decisions taken by either-or. In-fact the partners can counsel each other whenever a stress or strain disturbed the relation. Giving mutual respect is only solution for a prospective married life. After formally winding up the session the house was open for question answer time. The students well utilized this period to get clear many of them confusing thoughts they observed in other family relations which should not take place in their future life.

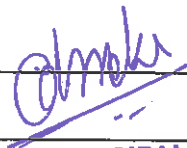

Mr. Chandrakant Sarvogod started new session on the same day after five minutes break on Sexuality education and legal aspects. This was more or less on anatomic knowledge imparting about the mis-concepts in about reproductive system. The speaker detailed each segment of getting fertility and pregnancy. He also gave an idea about X and Y chromosomes and classification in the birth of boy and or girl child. He also enlightened the students by giving some idea about the infertility and the possible reasons and also the treatment availability. He also lessoned the extra care and need of keeping the reproductive organs and areas with great hygiene and cleanliness for preventing venereal diseases.

In the legal aspect session, he started with the careful documentation of marriage related papers to ensure correct nomination to safe guard the survivors. If anything, fatal occurs to anyone. Before the session concluded there was a brief interactive give and take round up. The feedback from the students was very satisfactory.

The final days all the sessions came to an end and programmed was disbursed after vote of thanks by Asst. Prof. Tushar A. Pawar

<b>Objective-:</b>	To critically understand the Union Budget 2021-22
<b>Brief Report of the Program-:</b> <p>The program started at 4.30 p.m. with the opening remarks given by Principal Dr. Eknath Zhrekar. The welcome address was given by Asst. Prof. Harsh Shukla. Dr. Anaya Markandeya introduced the resource person Dr. Vilas Gaikar.</p> <p>The budget has its impact on every section of society either directly or indirectly. We need to understand the positives and negatives impacts of a budget on an individual's life. Covid -19 pandemic destroyed the world economy except for china and caused the loss of life all over the world. Dr. Vilas Gaikar stressed that this year we might face a negative growth rate. This situation comes once in a century. However, It is expected that the Indian economy will achieve 11 percent growth rate in 2021-22. During the time of the Covid-19 pandemic, we should not think about the fiscal deficit.</p> <p>Dr. Gaikar emphasized that there should be appropriate employment opportunities available in the unorganized sector. Industrial Growth should be given priority as it can provide more employment in the economy. Agricultural reforms have become a controversial issue in the current circumstances. It should be noted that only the agriculture sector showed positive growth even when industry and services failed to show any positivity. Sir said that this year we need to focus on how to survive and next year we should focus on how to revive the economy.</p> <p>The government and revenue collection was debated as the middle class was expecting tax relief from this budget. However, sir said we need to understand that at present government revenue sources dried so they are also not in a situation to provide any rebate. A lot of emphasis was given to health expenditure in this budget as sir explained health is wealth in real sense.</p> <p>Sir beautifully explained from where the rupee comes and where it goes. The interest payment is a big burden for the government. Privatization of Institutions of national interest like the defense sector is a big issue. Selling PSU which are in profit or of in loss because of</p>

administrative issues should not be the strategy. Atma Nirbhar Bharat Abhiyan was introduced in the budget but it's a long road ahead. The migrant workers faced the brunt of the covid -19 pandemic and therefore one nation one card scheme is initiated by the government. It is not good to tax solar products to tap solar energy. Sir raised his concern as the union budget has not given priority on human capital formation as it was expected from the budget. Sir said that we need to put in effort to strengthen Indian higher education system as Indian higher education sector is not on par with the international level.
